

It takes more than bricks and mortar to build a strong community...

## Announcing online management solutions for Aged Care Communities

With community intranet implementations across Australia, and clients such as Delfin Lend Lease, Urban Pacific and Multiplex, Keyvision's community intranets have provided developers with an efficient and cost effective online resource which turn estate developments into vibrant social communities.

Keyvision have now developed an online community engagement and management solution for aged care and retiree communities. NOW, community managers can provide residents with fast and simple-to-access information via a custom designed community website specifically developed for *their* community and the services it offers.
